How to talk like a native

English learners dream of talking like natives. Everybody practices pronunciation and grammar, works hard on writing, broadens their vocabulary. However, have you ever been told that, to sound like a native, you need phrasal verbs?

Most language researchers agree: if there are two ways of saying the same thing in English and one of them is a phrasal verb, you can bet that the phrasal verb will be the one the native speaker will use.

Polishing your phrasal verbs skills, having them on the tip of your tongue and knowing how to use them give your speech a feel of nativeness. So, are you ready to give one more step towards fluency?

Quem estuda inglês tem o sonho de falar como um nativo. Todo mundo treina pronúncia e gramática, se esmera na escrita, amplia o vocabulário. Porém, alguém já contou a você que, para soar mesmo como um nativo, phrasal verbs são essenciais?

A maioria dos estudiosos da língua concorda: se houver duas formas de dizer a mesma coisa e uma delas for com phrasal verb, pode contar que o phrasal verb será escolhido antes pelo falante nativo de inglês.

Caprichar nos phrasal verbs, dominá-los e saber quando usá-los dão à sua fala um ar todo especial de quem manja muito de inglês. E aí, tudo pronto para dar mais um passo a caminho da fluência?
